

Agatha White

October 6, 2024

Agatha,

You were much loved and still are.

I know you only spent the last year with us over your long life and it's been an adjustment I'm sure getting used to the two craziest paw-rents and a step sister that didn't like to share her cuddles but we loved every second of it.

You had a rough year. We did too. But together as one big pet family over the past year has been great. We feel like we've been your only paw-rents and we wish we had much more time with you, one year wasn't enough.

We will miss your purrs, cuddles, harassments over wet food and treats, chatter, French meows, playfulness, gallops, biscuits, belly rubs, aggressive head rubs, and best all your smooth-brain that knows nothing but love.

We love you Agatha (Smoothie) White.

'Til we meet again.
