LH

“ Ahsoka was the sweetest, most loyal dog anyone could ever hope to have. She was so kind and so gentle. Never snapped at people or other animals. For her to be a lab she never jumped on people, she didn't chew up shoes and other things. She wouldn't even lick your face. I always knew I could give her a kiss without her giving me a bath. She always loved to carry around her stuffed toys and chase her bouncy ball (chuck it). Anytime we had visitors she always greeted them and expected to be pet. I had several people ask me who trained her because she was the most behaved dog they had ever seen. Every time I told them I trained her, but to be honest she was the easiest dog to train and I have had several dogs.

Ahsoka, you are and always will be my sweet baby girl. I loved you then and I love you now! I hate cancer took you away from me, but I find comfort in knowing you are no longer in pain. I love you Soka girl! I will see you again!
