

Allie Boatwright

March 28, 2025

When we first met you we were instantly in love. As much as we felt we were rescuing you, the truth was you rescued us. Your unconditional love and loyalty brought healing to our hearts. You were so loved. You were absolutely the toughest little girl that we've ever known. You fought cancer almost your entire life, and it was very few days that you ever complained or let it get you down. The happiness and joy when we were all together was the highlight of our days as much as it was yours. Your love for food was unmatched. We long for the day that we will be together again. So don't you wait by those pearly gates for us, you go on and play, with your new body free from pain and disease, with all the treats you could ever want. We will be there soon and we will find you. Cant wait to see that happy smile and wagging tail again.
