"Angel will always be missed and loved. I had her for 17 years. She loved playing ball, having me grab her feet which she always barked and growled and bounced around for hours. Angel, loved bath time a lot! Favorite part about bath time for her was playing dry off the baby. And when she got groomed, she would get the zoomies, then roll all over the floor. Will miss taking her places with me and the car rides, mostly will miss the snuggling we did. She was a great baby." - Amanda Logan
