"Angel we miss you more than you will ever know! We love you!!! Momma is still unable to right your memorial even a month later. Tinker is barley holding on but he keeps trying to be ok. He will see you soon please meet him and have sheeba meet him to. Yall know your all he had. Yall 3 have given me the best years of my life you especially were my baby bottle fed you ever 15-30 mins for first 2 months of your life. My heart is devastated. Baby girl momma tried so hard ro save you but in the end god needed you more than i could save you. Ill update this when i can i still cant speak your name with out crying. I miss you so much you were my total world after sheeba" - Kim Brown

“ That picture of you when you were only 5 weeks old. The first time you ever pottied outside..to the picture with me over you crying at the moment you took your last breath. Momma has thousands of pictures and memories of you but we cant share them all. No dadsy still cant sit in yalls chair all the way. He still sits on the edge so you have your space i cant walk on the rug where u took your last breath life will never be normal again for us. But it does help our hearts to know you and sheeba are together again and enjoying the kids that god has given yall to play with. Christmas birthday and every day is never going to be normal again but we will see you soon. We miss you so much more than any words can ever express. My sweet angel marie sleep good and dont forget your prayers
