“ Bailey was born 3-1995 and passed away 8-8-24. She was owned by 3 different families and was originally named Tracy and was later named Presley. I could never remember Pressley and since she looked Irish with reddish brown hair and green eyes she was renamed Bailey. In between families, she was a stray for a time. Found walking a country road in Blount country by a state trooper and taken to a pound.

I only hope the last years of her life were secure and that she knew she was loved.
