GI

“ *Bailey, there is no way I'll be able to explain the love I have for you. You been a devoted, caring, loving friend since you joined our family in 2007. You left us so unexpectedly. We thought after a simple biopsy we would leave the vet with you and wait on results. For some reason there were massive complications and you left us yesterday #rainbowbridge. There is a huge hole in our heart and life. I have never loved a dog like you and will forever miss you my sweet baby.*
