“ On September 26, 2017, Bear decided that it was time to pack his bags, jump into a hot air ballon, and sail over the moon. Bear was a special puppy who never met a stranger in his short 12 years. He was a light to his family is even the darkest of times. He was funny. He was quirky. Simply put, he was one of a kind. He was one heck of a good ol' boy.

He is survived by his humans Brandon, Callie, Nan, Doyle, and Mema; as well as his baby sister Lucy the beagle. He has moved on to see his big sister Daisy and his Grampy beyond the pearly gates.

We will miss you old buddy. Goodbye for now, until we are able to meet again some sunny day. ❤️
