“ On September 9th, we made the difficult and heartbreaking decision to end the suffering of our best friend and companion Bella. She was my baby, my shadow and the mascot of our store. Everyone who came in looked for her because she was beloved by all and the loss of her presence will be a chasm which cannot be filled.

Bella loved her afternoon walks and anyone who has visited can attest to the fact she herded me to the door nightly so she could smell the scents of all who passed before. She always hoped I wouldn't be paying attention so she could give chase to neighborhood cats. She didn't want to catch them but she loved to see them run. She was almost afraid of cats as much as thunder storms and that says a lot. After 10 years of living together, she still wouldn't walk past her cat brother Arturo in the hallway without an escort. He was waiting on her yesterday on the rainbow bridge and I know in this new place they are best of friends.

Thank you to the staff of Cahaba Mountain Brook who came to our home and treated our girl with dignity and affection in her last minutes. Your kindness will not be forgotten.
