“ *R.I.P. our sweet black lab, Bentley. We miss your smiling face daily. You will always hold a special place in our heart. You had a tragic start to life when you were thrown from s moving car as a small pup but then you won the puppy lottery when you were found laying hurt and scared under a tree. You knew you had found a permanent home. We look forward to seeing that sweet face again on the other side of the bridge. Love you and miss you so much.*
