“ *This sweet boy adopted us- we are better people for the love he gave. Bob was a stray and was not trusting at first. I kept talking to him and eventually feeding him until we bonded. Once he came into our home- he knew he had found his place. We have no idea how old he was, but obviously an older guy. He had several health issues- asthma, diabetes and some issues with his back legs. Despite all of this, Bob was a happy guy. He loves us well and he knew we loved him. He will be forever missed. Thank you for the memories Mr. Bob...you were a good one.*
