

## Bobo Short

April 4, 2026

As Bobo's Dog Momma, and having him since he was born, he was the best pet, family member, and companion. He loved Chicken, carrots, and rice. Dancing, resting, and traveling to visit family members. Loved deeply and never will be forgotten, his paw print is on my soul forever

“ I came to know the precious Bobo here in Frankfort. His mom lived across from me . He would come from her apartment into mine and say his hellos let me get fur baby lovings as well. He was the happiest little dog. I know he is missed so much by his human mom which she adored him very much. Hope your happily running after them squirrels in doggie paradise.

“ Being Bobo's human big brother has been nothing but a blessing to this family. I will surely miss how you would run to cuddle next to my lap. Till we see you again sweet boy.
