

Candy Stark

August 8, 2022

I got Candy Baby back in 03 from a breeder in Oneonta. She was the runt of the litter. My daughter at the time was 3 and she wanted to name her candy. She quickly became our Candy Baby". She used to scoot on her stomach throughout the house! She was a fast runner and she was very hyper until she became blind at around 10 yrs old. She was 19 when we had to make the terrible decision. She had arthritis so bad she was dragging her back left leg and she had dementia. She lived a very long happy life!
