LH

“ Cari came to me 6 1/2 years ago, 4 months after I had lost my previous pup, from a rescue group. She was malnourished, and in bad need of some love and attention. I was blessed to have the opportunity to love on her for 6 1/2 years. She brought such joy to my life and I already miss her terribly. Dr. Jennifer Dexter and Dr. Lindsey Petras took great care of her as well as her cardiologist Ingrid Straeter-Knowlen. Thanks so much to all of them.
