“Cuddles was a very loving dog. Her life started out with my mom and dad. She was a very good companion to both of them. After Mom and dad passed away Magen took Cuddles in . She lived out the final years of her life in a good loving home. I know Cuddles love Magen as much as Magen love her. I cannot think of a better home Cuddles could have had other than with Magen. I am thankful their paths crossed, and they were able to spend time together. she will be missed, but not forgotten. Mike
