My little precious one is gone but will never be forgotten. You brought joy to everyone who met you. You were my sunshine my best friend & my little shadow. If there is a heaven for dogs I know you're having a ball. Mommy's little "dusty boo" always

“Dusty was such a beloved patient and friend at the clinic. He left us so many gifts in his time with us, some unwanted but that is always ok. I can definitely be thankful that he brought Ms. Angela to us. He will be missed dearly by the entire staff.

What a precious fur baby whose time was too short. So sweet and friendly and always wanting to be in the middle of whatever was going on. Good boy, Dusty. ☐

Dusty, your bark was definitely bigger than your bite but you had the confidence that you were a "big dog", nothing wrong with that plus you never bit anyone. 😊 You were just letting your mommy know that you all had company! Lol "All dogs go to heaven" so rest in peace little one!!💜
