“ *Most cats make me sneeze a lot, but Flash never bothered me. Marcel learned what a kitty cat was and what they say because of Flash and loved to say his name too. We loved him and already miss our little friend 😭 Misters had a wonderful life and was loved by everyone who knew him ❤️*

AB

“Flash you were a dear friend in a very special way. You tend to maintain your independence, but deep down we knew it is just an act. There is nothing so cozy as snuggling up on the bed a soft blanket, and listening to you purr and suckle yourself to sleep. I will always remember our precious memories we shared, and I will always love you Puppy!
