

Harley Mize

April 8, 2025

Harley was such a loved pet. He was as smart as he could be. I only had to make a motion and he would know what I meant. He was by my side 24/7 everywhere I went. He always knew when feeding time was as he would come and stare at me when that time came. That was what he did whenever he wanted outside or whenever he wanted something. I will always love and miss him.

Harley was a very smart dog. He knew when feeding time was as he would come and stare at me letting me know he wanted to eat. I only had to make a motion or tell him what I was going to do and he totally understood me. He loved to dig holes; some very deep and some smaller ones. Always chasing squirrels but they would outrun him to the nearest tree. Harley was very loved and will be greatly missed. I will always love you Harley.
