“ I rescued Hatter and his mom, and siblings almost 18 years ago. He was a tiny kitten and very ill with an upper respiratory infection. His mom and siblings got well quickly and I found them all good homes, but I kept him, to keep trying to make sure he was completely well. By the time he WAS well, he had totally stolen my heart. He was a "lap baby" from the beginning, and for over 17 years, he always stayed as close to me, as possible. A very sweet tempered cat, loved by everyone in the house. It was heartbreaking to have to say goodbye.
