“ *Hattie was one of the sweetest and easy going of all of our pets. She loved meeting people. She was adopted from Basset Hound Rescue of Alabama in 2008. She adapted to our family quickly and made her place. She loved to sunbathe almost every day. She didn't like to go out in the rain but would if she absolutely had to. She loved to be rubbed, especially with your feet while she laid at your feet, although she wanted it to go on for hours! She loved dinner time and her naps. She made sleeping look so wonderful and always tried out the new dog beds first (even if it was for the small dog). She will be truly missed but was so very much loved. Her pain is now over.*
