

## Hulk Williams

March 10, 2026

Hulk was my service dog I have PTSD and he always lay his head on me when I have panic attacks he would never leave me he was everything to me . he was there for me when my mom passed away he always put his paw on my shoulder and bump with his nose to make me look at him . He was funny and a thief he stole everything he could from cheese cakes to socks. He kept the house loud just with his presents. There was never a dull moment now the house is quiet and it hurts bad but Hulk I didn't want you to suffer buddy I will always love you.
