DA

“ Jackie was a beloved family member and we all miss her so much. I grew up with Jackie—she loved to play ball, swim, chew on things, and eat lots of food. She had a very bold personality that did not diminish with her age at all.

When I was a kid, I happened to get bit by a dog. Although my face got torn up pretty bad, it healed up nicely and there's only a small scar now. This dog was the same breed as Jackie. When my grandparents first brought her home, I fell in love immediately. We were best friends since day one. Sometimes I wonder if I would've developed some fear of dogs if it wasn't for her.

We are all thankful for our memories with her and will miss her dearly.

Rest In Peace, Jackie Crackie ♥
