

Josie Clayton

November 11, 2020

Our Josie girl loved us for 17 amazing years. She was a beautiful rescue pup who had the best manners and sweetest spirit. She never met a person, or a fellow animal, that she didn't greet with a happy smile and a wagging tail. She was warmly nick named Nosy Josie because she was very interested in everything going on around her and us.

She took her Australian Shepherd duties very seriously and patrolled our home hallways with dedication and determination.

For many years, she spent most of her days outside, befriending neighbors and protecting our community, coming inside only to sleep at night. In her senior years, she became my house partner and slept on her bed at the end of mine.

My favorite memories are of her running across the yard to greet us as we returned home each day, and also of her snuggling her nose up close to my neck to love on me. She was a lovely, gentle, precious friend that my family will always love and miss.

What a lucky day it was when we found her tiny sweet self at the local humane society!
