“ *Julie Bug your Mom loves you and misses you so much. I'm sure it was hard for you to leave her, but you know what they say: a lady always knows when to leave...and you are definitely a lady! Thank you for taking such good care of Ginger and Jake. We will try to keep them happy and out of trouble until you are together again. You are such a good girl.* ”

“ *Buying her as a surprise and carrying her around in my pocket all night. Julie was a great girl and I'm sure she and Godzilla are having a blast together again! Rest in Peace sweet baby.* ”

“ *My Dear Sweet JulieBug:*

Today would have been your birthday but you had to leave us. I know your little heart just couldn't keep going. I can't even begin to tell you how much I miss you. I pray that you are in heaven with Godzilla and that you both are playing and having fun. Jake misses you too. He still waits by the food bowls for you to start eating first, he looks for you, especially at bedtime and he seems lonely without you here.

I hope and pray that I gave you a great life. You and I went through a lot together and you were faithfully by my side for 16 years. You were always my one true source of unconditional love and I hope I returned that love to you. I miss you doing your little dance and barking at me when it's time to eat. I miss you being so excited when I come home. I even miss your bad breath.

You will always be in my heart. I love you.

Your, Mom
