DH

“ Our sweet Keia Girl would have been 11 years old in January. We were the owners of her parents, Gabe & Gretta. They had a litter of 12 German Shepherd Puppies and Keia was number 12. She had been with us since she came out of the womb. She was a quiet mild mannered little girl. Keia had EPI, a pancreatic disorder, so she was never a big dog. But she always kept her weight of about 65 lbs. She didn't like a football game or a NASCAR race when we were watching on TV. She was horrified of thunder. We had to give meds to keep her calm. She was Chucks working champion when he walked our seven acre fence line to cut weeds. She never left his side. She loved treats & ice cream. And loved to fetch tennis balls. We miss her so much. She will live in our hearts forever. ❤️
