Tribute Wall

“ Lexi is the love of my life. I shared almost 11 years with her and she was full of life. We hiked, swam, walked, played and loved. She was so smart, that she saved her daddy's life. She was 6 months old and woke me up when having a heart attack. She loved her little sister (Sissy) and mourned her when she passed. Her unconditional love was more than we could ask for! Lexi we love you and miss you so much.
