

## Logan West

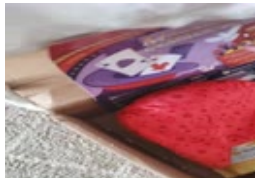

February 11, 2023

"Logan was adopted from the Nashville Humane Society. He had heartworms and had not had a great life. He was four when we got him. You know how some pups are a different kind of heart dog, well Logan was that to us. His death was unexpected and we are devastated. He crossed the rainbow bridge and is with all his brothers and sisters running free. We love you Logo run free big boy, run free. XOXO" - Vicki Sims
