“*Lucy was the best dog one could ever ask for. She was extremely loyal and had "personality plus." Lucy loved everyone that she met.*

After growing up in Auburn with Eryn, Lucy decided to adopt Dan as her master. She moved to Montgomery and then later to Birmingham. When Dan and Melanie married, Lucy lovingly welcomed Melanie into the family.

Lucy made sure that her Master stayed in tip top shape taking him for walks every morning and evening. Lucy also made sure that her master got plenty of fresh air everyday as Lucy loved to be outside.

Whenever Dan had to travel, Lucy stayed with Dan's parents PaPa G and Mema took care of Lucy and treated her with the same loving care that her master did. Lucy and Papa G were extremely close and he even spoiled her by hand feeding her, a ritual that she enjoyed when she came back home.

Lucy's favorite time was when her family came home, always greeting everyone with a happy dance. No matter what kind of day you were having, it was not hard to smile and be happy when Lucy greeted you at the door.

She loved her treats, and would often squirrel them away throughout the house so she always had plenty to eat. She loved to sit next to you on the chair and watch TV. She did not like thunderstorms and became nervous when her master watched Auburn football. I remember watching Auburn playing Oregon in the BCS National Championship game at home, snowed in, on the couch with Lucy sitting on my chest and pawing me whenever I became too excited as if to say, "don't worry, we got this one."

Lucy was a special dog and will be dearly missed.
