“ *Maci was the sweetest thing. She loved getting to meet new people, sit in their laps and get all the pets she could. She was always purring, always happy, always talking. She was definitely a social kitty. She truly did not have a mean bone in her body. She'd never kill bugs, just play with them. I am beyond blessed to have had the unconditional love of something so selfless.*

Maci, you were the best gift I could've ever been given. You filled my life with so much happiness and sunshine. You never left my side. You gave me seven years of happiness. Sadie and I miss you terribly but we know you're giving comfort and love to those who need it most. I love you so much Poot. One day we'll see each other again. Rest in Heaven my sweet, sweet girl.

“ To have Maci in my life was the sweetest gift. She genuinely loved people, never hesitating to introduce herself to someone new. She was always happy, always purring, always talking. Definitely a social kitty. She always found a way to introduce a little ray of sunshine on a cloudy day. I am beyond blessed to have had unconditional love from such a selfless, beautiful creature. Maci was seven years old at the time of her passing and seven years seems like such a short time now.

Maci, Sadie and I miss you terribly but we know you're in a better place, giving comfort and snuggles to those who need it. You will never be forgotten nor will you ever leave my heart. I'm so thankful that I had seven wonderful years with you. You filled my life with so much love and kindness. I love you sweet Poot and someday we'll see each other again.
