BW

“ *We rescued Maddie. She was afraid of men and it was felt we would be a good match for her. She was a very good dog. She had to deal with glaucoma issues and lost sight in both of her eyes, but we did manage to keep the second eye for longer than is normally expected. She always took things in stride.*

“ *Maddie was our Basset bull. She always pawed at the carpet like a bull waiting for her breakfast and supper!*
