“Maggie Kate was the best girl in the entire world. She was born July 8, 2015. She was only six years old and taken way too soon. She was our first fur baby and our whole entire world. Maggie never left our side and she always knew how to comfort us. We needed her as much as she needed us. Our entire life was planned around our girl, even down to vacations and leaving early after only being away for a day because we missed her too much. We needed her as much as she needed her mama and daddy. December 17, 2021 will always be the worst day of our lives. I'm not sure how we will move on and it still doesn't seem real. Keep a watch on us from heaven, Maggie Kate, lord knows we need you now more than ever. We miss you, we love you from now until forever. -love your mama.
