“ It's like, you were never supposed to leave me. I guess I didn't realize how close and drawn I was to you. I miss you so much. Its just hard to get up and see your kennel is not there. I do still blame myself because I took you outside. I'm sorry Mellie. I love you lil girl. I'm so sorry. I miss you like crazy.

“ Mellie, I'll never forget the day we got you. I tried my best not to get attached because I had just lost Scar a few months prior... You hopped your pea sized body in my lap and took a nap with me and every since then you been my girl❤️. I love and miss you Mellie Pellie. Also it will always and forever be “Mellie Pellie is Terrible”

“ I'm glad I was able to be her friend for the entirety of time I've known her. I only wish we had more time together. She was taken far too soon. I hope she's plotting her next move after she figures out how to reincarnate into a dragon.

“ I will forever remember your beautiful smile no matter what was going on. That happiness in you was contagious and so was your silliness.
