DF

“ *Marty was the soulmate we all wish we could have. He was my constant shadow and loved me more than life. I loved him as much as a child of my own. He was my best friend and stuck by me when I was alone or needed a friend. His life changed mine. I will never be the same without him but I am constantly reminded of his presence by nature. I've seen rainbows, hummingbirds, and a Westie that looked and walked just like him coming out of a restaurant of all places. I feel his presence and it makes me happy. Thank you Marty for being my best friend for 14 and a half years. I will love you with my whole heart until I see you again in heaven. Keep giving me signs you're near. It gives me peace. You're in my heart always and forever.*

Love, Mama
