“*Maude was my elderly and cold black cat that I adopted when I lived in Okeechobee, FL. She loved to chase lizards and was a friend to my dog. We later lived in Central Florida and when I retired we came to Birmingham. She only cared about me and her food. She slept with me every night. She is missed by her fur family. The thing I miss the most is taking care of her needs on a daily basis such as "what will Maude eat today". I would go out daily and buy what I thought she might eat. She was very picky about her food in her last two years. I did her "bucket list" 15 times. I hope she enjoyed her life. I wouldn't have missed her for the world.*
