

Mika Burns

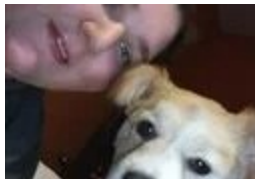

March 11, 2026

Mika was my best friend! I got her when I first moved out on my own when she was 6 months old. We grew up together and have been through so much; 2 marriages, heartache, deaths. She was always there to comfort me when I was down. One of the things that I will miss the most about her, is how excited she would be when I would come home. She would yelp and do her what we call her fox noise, I miss that soo much. Coming home just hasn't been the same. I miss her so much and I am still heartbroken about having to let me true best friend go. One thing I can look forward to is seeing her and hearing her squealing when I get to see her again!
