"My sweet MM girl.

I didn't get to be home a lot over the last few years with you, but I will always remember the good times we had together! You were always thinking you were a lap dog no matter how big you got and you didn't ever get scared of my wheelchair like most dogs. I will always love you and think of you. Run free and eat as much peanut butter as you want, I love you sweet girl." - Brittany Messier
