“ Moses was a very special cat. I rescued him from a person that was going to put him down because he had tested positive for FIV. He was a vet near me and I took over his care. I paid weekly for his food and finally this vet told me he had to go no room for him. I took him to another vet where he was around a lot of kittens that had upper respiratory infection and Moses got very sick. This particular veterinarian refused to treat him with antibiotics so I wrapped him up and took him to my own veterinarian and Dr. Tate began to treat him right away and he recovered after a stint in ICU. Long story I found Moses a place with my friend Gary where he would have his own room. Gary, just fell in love with him. SO, Moses became known as my Boy Wonder because for so many years he remained healthy. I think he was 15 on that January day we had to let him go. Moses had a great life Gary and both loved him so much. He had a great home. I miss you Boy Wonder until we meet again. We shall meet again!
