Wendy Pigford

“ When we saw Nika at the shelter she and her siblings had been surrendered to the shelter at 8 weeks old. We soon found out she was not 8 weeks but more like 6. She was full of worms and did not feel good. We were happy to get her healthy and happy. A tiny puppy soon grew into a big ole sweet girl around 75 lbs. When we adopted Nika, I had recently lost another dog that I was very close with. Nika helped me heal and was my partner through dog training classes. She was a very smart and funny girl. She followed me everywhere always keeping me laughing at her silly ways. We were blessed to have her just short of 13 years. We miss her so very much.
