

Okie Dokie Auer

May 12, 2025

Okie Dokie was our beloved dog for 14 years. He came from a tornado in Moore Oklahoma where they never found his family. The first year we had him he stayed under the bed. But we finally got him to love riding a motorcycle. He would sit and ride for hours and if he heard us start them up he came running and would jump on the bike wanting to go. He also loved going kayaking and would swim from kayak to kayak. He loved fishing and loved it when we caught a fish. But his favorite thing was the beach. He loved running and playing with his sister Abbey on the beach. He would stay out there all day. When we went to base he would lay out there and sun all day. He loved the beach air. We miss him but we know he had a full happy life. You know they say we rescued him but we think he rescued us. He will be greatly missed. I also wanted to add he also liked his daily family nap.

Tribute Wall

AW

“ Okie was the sweetest pup. I couldn't find one of my pictures of just Okie, but I did find this one with him and Abby. They were both so cute.
