"From Day one when I came to meet you for the first time and you ran straight past me and jumped into the passenger seat of my car and looked up at me, I knew you were mine.

From swimming the mountain creeks with me to laying in my lap snoring, from moving to TN to FL and back to AL by my side, from learning how to share and be a big brother, you were always there right by my side conquering the world.

I can still see your head tilts at strange sounds and hear your "a-woooo woooo's."

You will forever hold a piece of my heart and I will miss you dearly, sweet Ozzy bear." - Heather Richardson
