“ We found Redbone in a parking lot on December 10 a few years ago. We tried to find his family but quickly knew he would be with us for life. He was the sweetest dog that I have ever met. When our beloved Annie passed away 18 months ago, None grieved himself to the point he became diabetic, slept in her place, lost vision, never seemed the same.
The only solace we have right now is knowing he is with her. They now reside beside my bed on my nightstand. We miss him so.
