AE

“ I found this pup trapped inside a game cage when I was 17. Someone had bungee corded it shut with him inside. Took em home, nursed him up, and he became the best dog I ever had. I remember when my nephew was learning to walk roscoe would dive under him to catch him when he fell, he was always great with kids. Really he was great with anyone or other animals. Only 3 times he ever got violent were biting a home intruder, biting someone breaking in the car, and biting a dog that came in the yard and attacked my other dog. Roscoe was an amazing protective, social, pup. I hope I can be half as good of a person as he was a dog. Rip lil buddy... ill catch ya later on the other side of that bridge
