“ Scout our boy

I remember him from start to the end. Oh how you are missed. From each day coming home having you wag your tail and wave at me everyday for the past 5 years.

One of the greatest memories I will always remember is our times we would go outside and smoke a cig as soon as I would get out of the shower.. it was like clockwork.. we both just knew what time it was.....

If I had to think of a story to tell it would be the time..... it would be the time you took me for a walk for about 2 miles up a main rd. Or ran me around the McAdory track chasing you. Or the time you made me hop a 8 ft fence to finally get you back home. Those were the times I was so angry with you..... but I see now that you just like your freedom.. I'm sure you are digging holes in the street of gold right now .. giving the angels trouble by chewing on the tree of knowledge and shedding in the mansion prepared for us to be with you one day. Love you buddy .
