"Serenity Marie Welsh/ babygirl mommy and daddy will forever love you. We will never get over the loss of you. I remember when we first got you we was stoked because you was so chunky and so cute and you have a lil dress with a tutu on and it melted our hearts the first time you barked. Then you was about 4 months old you kept trying to take my chicken nuggets and that's when we found out you was in love with ranch just like your daddy. You always escaped out of you're puppy pen and we didn't know how you got out till one night me and daddy sat in the dark just waiting on you and we seen you moved a pillow to the side to get out. Babygirl you have been the joy in our hearts these last 2 and a half years we have had you. I can't believe you are gone but you surely aren't forgotten baby girl your paw prints are marked on all of our hearts forever sweetheart. We love you - Hanna and Mason Welsh (mommy and daddy)"

“ This is when I came home and surprised my husband with a shirt for her. He didn't like it at first me putting clothes on her but he came around to it and started like how I dressed her up whenever I got a chance. She full on looked so cute and derpy in this picture I love it still to this day. She will forever be my babygirl.
