

Sheik Nance

March 16, 2026

Our beloved little girl, Sheik, passed away March 16 2026. A woman of many names, See-See, Moo-moo, Pookie, Squeak-ums, Baby Girl, among many others, she was dearly loved and cherished in her 12 years of life.

First coming into our lives as a kitten stuck in a car engine, she was rescued by her human mom who in turn gifted Sheik to her human dad, and Sheik has been a blessing in both their lives every since, bringing many smiles and much laughter and happiness.

Sheik was a small and quirky little girl who loved helping her Dad play video games, pester her Mom for turkey and ham lunch meat, taking naps with her Granny, and sharing a sunny windowsill with her feline brother Sephiroth. She has quite the list of odd quirks including being indignant about anyone playing with her little feeties or toe beans, eating cat food exactly one kibble at a time, squeaking like a toy instead of meowing like a normal cat, shamelessly begged for deli meat or baked chicken, and finding hiding places of which we will never discover.

Though quite opinionated and a vocal complainer via annoyed squeaks, she was an extremely loving cat who had a unique way of showing her deep affection to each member of her family. Though out of everyone, she was above all her Daddy's Little Girl who always hated seeing him leave for work,

and never let anyone but him dance with her.

There is so much that can be said, but none of it can ever properly encapsulate how much she was loved, and how deeply she will be missed. We will always keep her close to our hearts, and thank God for the blessing that she was and all the years of loyal and loving companionship she gave her family, being a welcome comfort during rough times and a dutiful nurse in bouts of illness. Her compassion knew no bounds, and our lives will never be the same without her.
