"MoGuy was one of our children. When we adopted him at 6 weeks, he was ill (we did not know). That being said, he lived to the ripe old age of 24. I miss saying, "hey, old man", every morning. I miss you wanting my lap, morning and night. I may put you in front of the heat vent for a time or two. Enjoy your time with The Rat. We will see you soon enough." - Loryn
