"Spice was my baby, I got her when she was 9 weeks old and her sister. I kept her and gave her sister to my ex boss Scott Foshee. She was the run of the litter. But she loved me. If she got up in my lap and the other dogs came for us and then she would growl at them because she wanted me to herself. She was really pretty and I cried for 2 days when she passed. She was truly be missed and always remembered." - Ira Lucas
