“ Her life began in a horrible situation BUT was rescued by love so ended after a wonderful life filled with attention, excitement, play great food, walks, toys and warm snuggles every night. This was a sweet and obedient dog that gave more than she ever received. (and that was a lot!) A fantastic companion for her human, and a precious "granddog" to her grandmother Dandy! She will be missed. But the memories we made will always fill our hearts with a thrilling and warm feeling along with a great big smile!
