“ Sun was born April 8th, 2010, to a stray mom. He and his mother and six littermates were rescued when they were 3 weeks old, and he grew up greatly loved in the family of Anne Kate Ard. Though he was always playful and sweet, he was diagnosed with *Lymphoplasmacytic Enteropathy* at an early age. He enjoyed life, though, and loved to play with his brother Hadjii Jacob. The two would wrestle and play-fight frequently. He also was phenomenal at catching the dangly mouse which hung from the ceiling by an elastic band. He chased it avidly.

At age 7, he was found to have Hypertrophic Cardiomyopathy, like his brother Joshu who had died suddenly two years before. He was put on heart medicine at that time but didn't respond well to it. He died in the loving arms of his human mom on January 26th 2018, at not quite 8 years old. He is survived by his mother Mama Julie and five littermates Hadjii Jacob, Orlando, Ghost, Masenka, and Momo, and by his human family. He was a sweet and gentle cat who purred prodigiously. He will be dearly missed.
