SS

“ Sydney was a Striped Bengal a little over nine years old. He was put down on 17 September 2019 to avoid the pain from Lymphoma cancer in the bladder. He was an active cat that was always curious. While his life and spirit has departed and his physical body returned to its natural minerals, he has touched us in a ways that other pets has not and his memory will last with us for the memories and pleasures he has given to us.

Sam Scherr - September 28, 2019 at 10:35 PM
